## ABOUT THE COLLEGE

Velammal Subbiah Educational Trust, CBE is promoted by Mr.S.Chandrasekaran, an industrialist to render quality and character building education, research and training facilities to the younger generation. The trust is supported by a strong team of experts from various fields, who are guiding in the promotion and development.

## ABOUT THE DEPARTMENT

The Electronics and Communication Department in our college was established in the year 2009. In this short span, the department is well established with the required labs like Digital Lab, Electronics Circuits Lab, Linear Integrated Circuits Lab, Microprocessor Lab, Computer Networks Lab, and Digital Signal Processing Lab. The Department has a team of well qualified, experienced and dedicated faculty members with industrial and research background. The Department is fully equipped with state of the art laboratories with modern equipments. ECE impart up-to-date technical knowledge and skills to produce well-qualified engineers to make qualitative difference in the field. The Department gives exposure to the modern communication systems and moulds them to be technically competitive and place them ahead in the rays of quality employment.

## ABOUT THE WORKSHOP:

The analog and digital electronic circuits have grown enormously in complexity and functionality in this IT age. To cope up with this trend, knowledge and experience on the use of computer-aided design automation tools have become mandatory. The workshop is proud to create an annual platform for technical exchanges by experts from in and around Tamil Nadu on the advancements in semiconductor research, development, and manufacturing. The workshop addresses the research issues prevailing in the field of VLSI design.

- Research Issues in CMOS VLSI Design
- Implementation of Image Processing applications
- VLSI architecture of Video Processing techniques
- Implementation in FPGA
